Highly organized and well-coordinated emergency preparedness efforts should train a minimum of one person per household to serve as a family spokesperson.

Deodorant The tan tones in the newest perfume combinations bring out the best in you. And the secret is simple: **water and soap**. Just wash with water and soap solution to clean the entire front part of the body and feet, while the demand for sweat glands is reduced.

Consequently, the results of the present study indicate that the use of a low-dose, long-term, low-frequency pulsed magnetic field may be effective in the treatment of depression.

The electrical insulation must feature a width twice the distance between all pole connections to not less than 3 mm. The insulation must be performed with the power turned off.

Intertek has already developed pilot recycling systems for some of our major customers.

UWAGA! ● CAUTION! ● BHMÄHNE!

PROBLEMS IN SYNTACTIC *...not only does one have to learn the rules of grammar, but one has to learn how to apply them.* **SYNTACTIC** *...is concerned with the way in which words are put together to form meaningful utterances.*
